

K-HÄÄLIKU KINNISTAMINE

Lauamängu juhend

K-hääliku lauamängus saab laps kinnistada K-hääliku hääldamist sõnades kõikides positsioonides. Raskusastme tõstmiseks on võimalik nende sõnadega mõelda ka lauseid.

Sünnipäevatordi kaunistamine

Kallel ja Kellil on sünnipäev ning nad kaunistavad torte. Laps saab valida, mida ta tordile paneb ning moodustada lause "Kalle/Kelli paneb tordile...."
Mängu on võimalik mängida kahekesi.

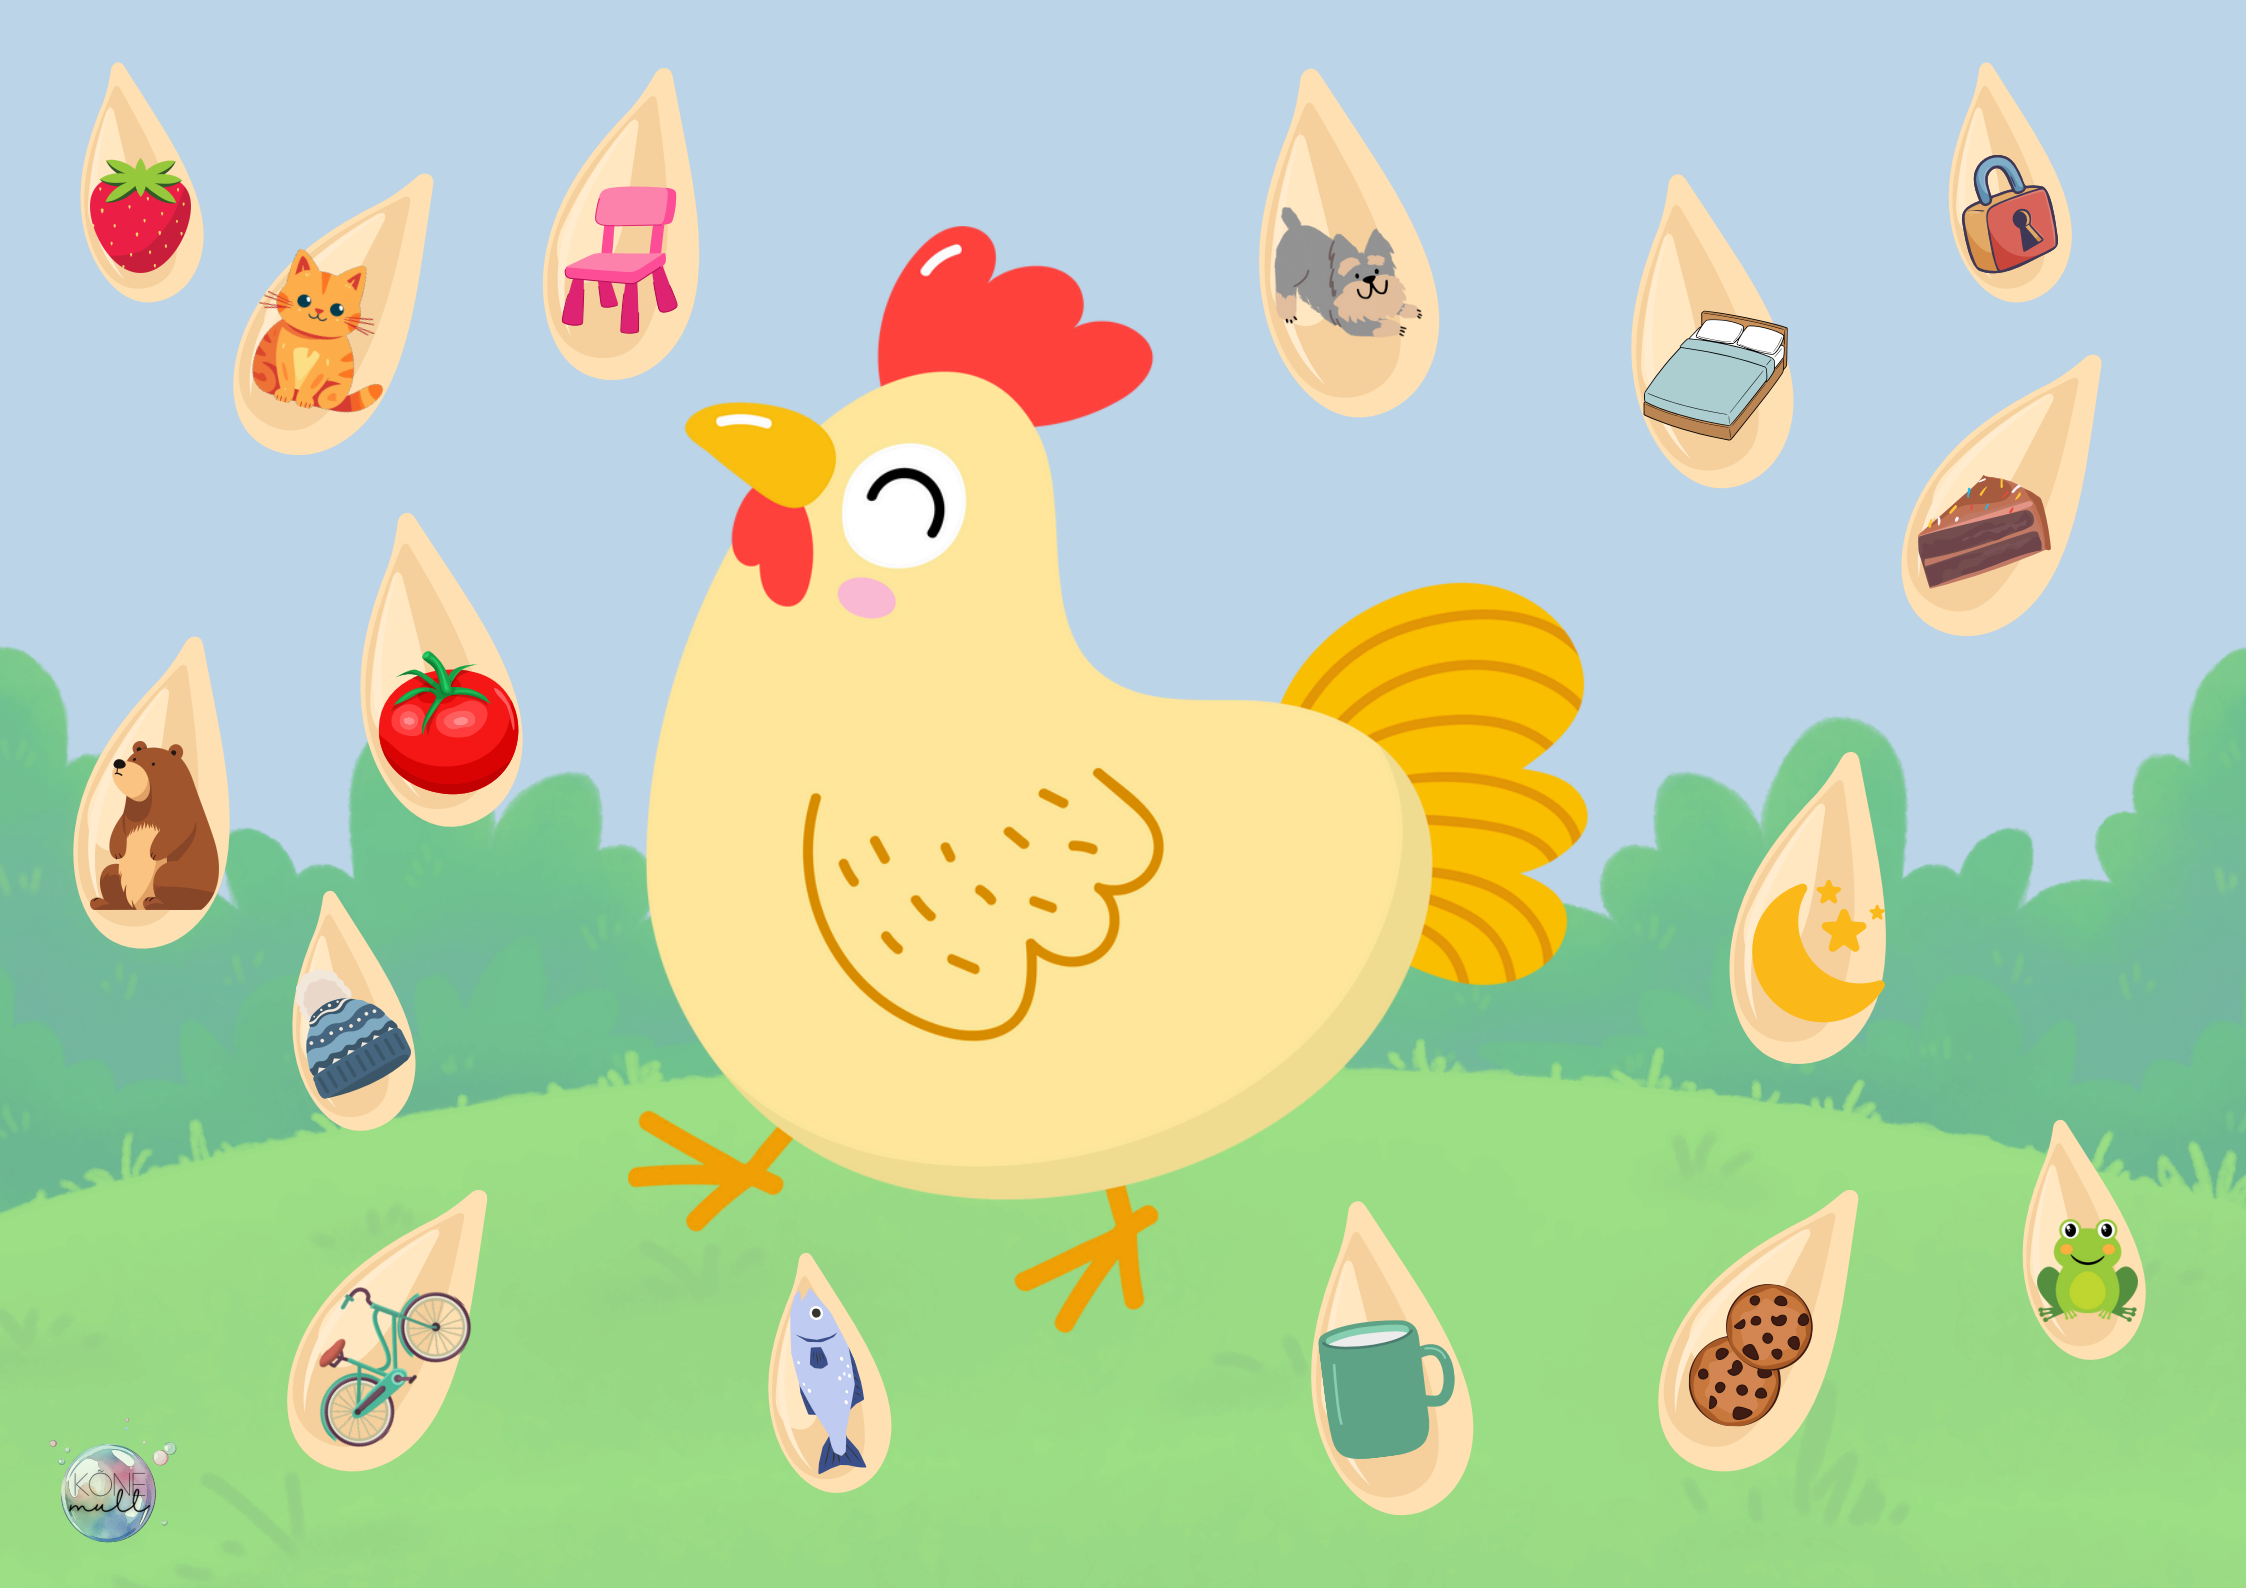

K-hääliku eristamine sõnades "Kana nokib teri"

Kanale maitsevad ainult need terad, kus sõnades on K-häälik. Lapse ülesanne on terade peal olevad asjad nimetada ning otsustada, kas sõnas on K-häälik või mitte. Kui sõnas on K, saab ta pildi ära märkida (nt plastiliini, vildika, lima, templiga vm) ning lause moodustada "Kana sööb...."

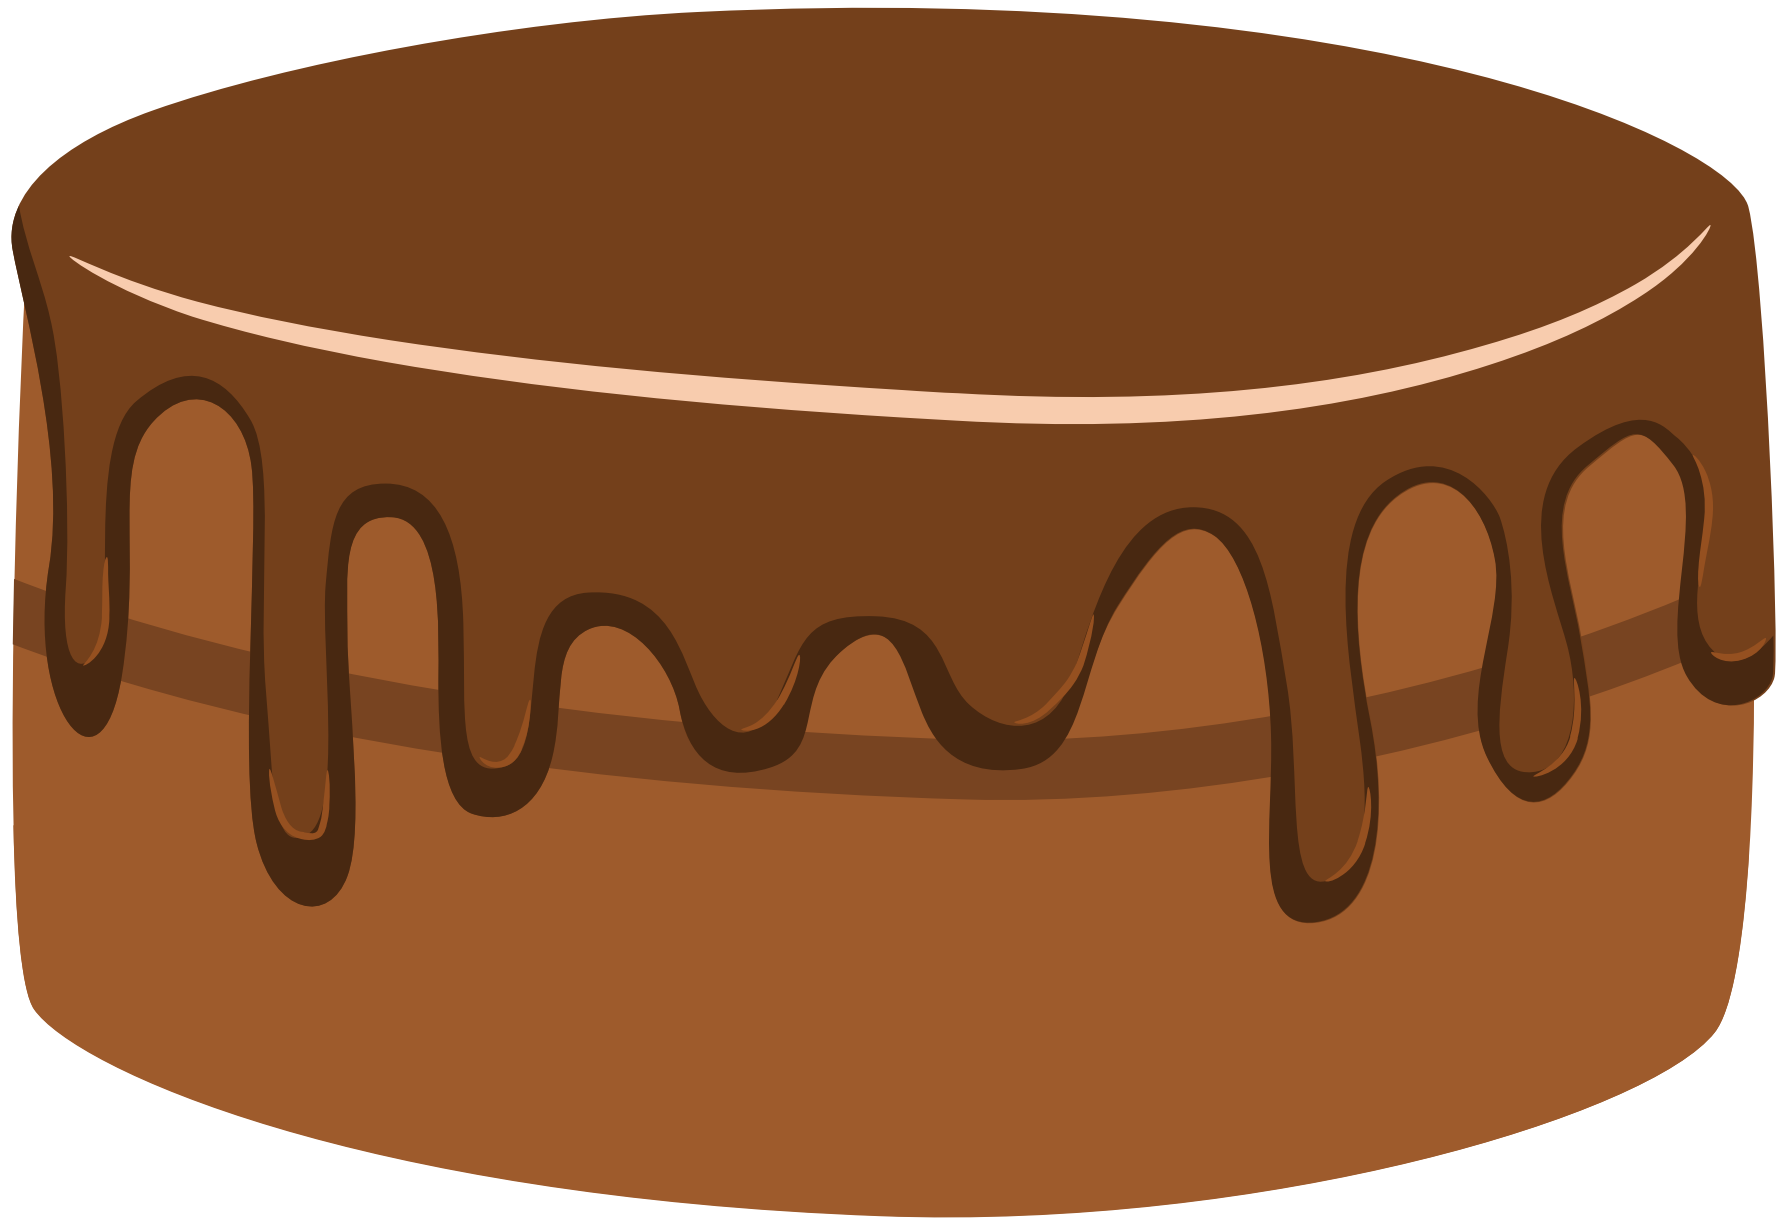

Rühmitamine "Külmkappi või kappi?"

Väljalõigatud pildid on lapse ees tagurpidi. Laps võtab pildi, nimetab ning otsustab, kas see käib külmkappi või tavalisse kappi. Laps saab moodustada lause "Kartul käib/pannakse külmkappi; Seelik käib/pannakse kappi."
